

Glamour

*Epoca SpA established in 1968 in Bassano del Grappa, is specialized in producing plastic articles. Lines of high quality products destined for the professional cleaning and household fields, chemical industries, mechanical and cosmetic sectors as well as care cleaning and construction.*

*This catalogue introduces a series of products dedicated to the cosmetic field. It foresees a style of the 50's and illustrates Pin Up Girls, the inspiration is tied to the highlights of the female beauty and to the attention of their feminine beauty taking care of their looks in every aspect, from long soft hair to detailed makeup. Remains valid, however, the principle of will, especially with the looming crisis, by all the women the need to dream and why not? Flaunt.*
